

AVA Limited

Virtual GP Consultations and AI Vital Scans

- Affordable healthcare at your fingertips
- Safe, convenient access to your medical history
- Reliable, remote diagnosis
- Catching potential health issues early
- The comfort and convenience of speaking to a doctor when needed
- Add unlimited dependants

PRODUCT OVERVIEW

Patients often face high out-of-pocket costs for treatment and medication. **Ava Limited** gives you access to six Vital Facial scans and six virtual consultations with a doctor per subscription, lowering the risk of financial hardship or medical debt. Once your medical savings have been depleted, you will pay out-of-pocket for day-to-day expenses like GP visits.

With **Ava Limited**, patients can scan their Stress Level, Blood Pressure, Heart Rate, Respiratory Rate and

Oxygen Saturation percentage on their smartphone, driven by Artificial Intelligence (AI).

If a doctor is required, the patient is able to make a virtual appointment with a doctor using the AVA app. A remote consultation is conducted and a script and / or sick note is provided via email. **Unlimited dependants** are allowed on each portfolio and top-up options are available once the allocated scans and consultations have been used.
